

INTERNATIONAL ARCHAEOLOGY, LLC

Job Title: Principal Investigator, Archaeology (\$80,000.00 to \$103,000.00/year)

Location: Hawaii (in-person)

Employee Type: Full-time regular, Exempt, Salaried

Position Overview

International Archaeology, LLC, is seeking a highly qualified Principal Investigator to join our team. The Principal Investigator role demands a seasoned professional with a strong background in archaeology, proven leadership skills, and a deep commitment to cultural heritage preservation. This position will be responsible for overseeing project execution, from initial planning through to final reporting, ensuring the highest scientific and ethical standards. This position offers the opportunity to work on diverse projects, mentor junior staff, and contribute significantly to the field of archaeology and cultural resource management.

Responsibilities

- Lead and manage comprehensive archaeological projects, including survey, excavation, and monitoring, ensuring compliance with all regulatory and company standards.
- Develop and implement detailed project designs, methodologies, and timelines, coordinating with clients, regulatory agencies, and project teams.
- Analyze and interpret archaeological data, synthesizing findings into comprehensive reports and scholarly publications.
- Maintain up-to-date knowledge of regulations affecting CRM and general industry trends and oversee the application and maintenance of permits to ensure all activities comply with relevant laws and regulation.
- Mentor and provide leadership to junior archaeologists and field personnel, promoting professional development and excellence in fieldwork and research.
- Provide quality control for all deliverables.
- Demonstrate technical excellence in area of expertise and maintain knowledge of best management practices.

Qualifications

- At least 5 years of experience in archaeological fieldwork, research, and project management, including significant experience leading projects and supervising teams.
- Experience in Pacific Island and/or Asian archaeology is preferred.
- Demonstrated proficiency in GIS, remote sensing technologies, and digital data management related to archaeological research is a plus.
- Track record of scholarly publications, technical reports, and professional presentations preferred.
- Exceptional organizational, analytical, and decision-making skills, with the ability to manage multiple projects simultaneously.
- Knowledge of and experience in applying research methods and forming and maintaining
- Excellent interpersonal and communication skills, with proven experience in stakeholder and client relations.
- Extensive knowledge of federal, state, and local regulations pertaining to cultural resources and archaeological investigations.
- Willingness to travel and adapt to various field conditions and project demands.
- Effective client and interagency internal-team relationships
- Excellent verbal and written skills

Education

Master's degree or higher in Archaeology, Anthropology, or a closely related field, with a specialization in Pacific Island archaeology strongly preferred.
